EXPERIENCE:

Software Developer (Intern) - ALGOBRAIN AI

May 2024 - July 2024

- Designed and developed user-friendly interfaces using **Flutter** for a live project, ensuring seamless navigation across devices.
- Played a key role in troubleshooting and **resolving software issues**, improving overall project reliability.
- Actively participated in **client meetings**, gaining insights into client requirements and contributing to project discussions.
- Collaborated effectively with team members to implement **UI enhancements**, fostering a collaborative work environment.

TECHNICAL-SKILLS:

- **Front-end:** React.js, Next.js, Tailwind CSS, Flutter
- **Back-end:** Node.js, Express.js, MongoDB, Zod
- **Programming Languages:** JavaScript, TypeScript, C++
- **Other Skills:** Data Structures and Algorithms (DSA), GitHub

PROJECTS:

PsychoCoders | [\[Live\]](#) | [\[GitHub\]](#) | Individual

March 2024

Tech Stack: React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB

- A **MERN web** app enabling users to solve coding problems in **C++**, **Java**, and **Python**.
- Built with React.js, Vite, and Tailwind CSS; integrated **Monaco Editor** for a seamless coding experience.
- Utilized **Node.js** and **Express** for robust server-side logic and **MongoDB** for efficient data management.
- Implemented **JDoodle API** to execute code in real-time, enhancing user interaction.
- Displays problem-solving stats, including **languages used**, the latest **correct solutions** with dates, and counts of easy, medium, and hard problems solved.

WebWeaver | [\[Live\]](#) | [\[GitHub\]](#) | Group

Tech Stack: Next.js, MongoDB, TypeScript, Zustand, Cloudinary, Tailwind CSS

- Creating Web Weaver, a **no-code website builder** aimed at enabling users to easily design and customize **single-page websites**.
- The platform provides a variety of **editable templates**, perfectly suited for personal portfolios, business showcases, and other needs.
- Users can **modify** different elements of the **templates**, such as font styles, text colors, sizes, images, and more, to craft a website tailored to their personal or business requirements.

AnonNotes | [\[Live\]](#) | [\[GitHub\]](#) | Individual

June 2024

Tech Stack: Next.js, Tailwind CSS, MongoDB, TypeScript, Next Auth, Zod, Gemini API

- Developed a web app enabling users to send **anonymous** notes, messages, or questions, with a focus on anonymity and supportive communication.
- Utilized **MongoDB** for secure data management and **Next.js**, **Tailwind CSS**, and **Shadcn UI** to create a responsive and intuitive user interface.
- Implemented **email verification** with **NodeMailer** and integrated **Next Auth** for secure **authentication**.
- Integrated the **Gemini API** to enhance user engagement by suggesting contextually relevant messages.

EDUCATION:

Uka Tarsadia University

2021 - 2025 (Expected)

Bachelor of Technology - BTech, Information Technology | CGPA: 8.86 (Till Semester 6)

ACHIEVEMENTS:

- **Runner-up** in University-level Problem-Solving Competition (Second Year).
- Solved **350+ problems** on GeeksForGeeks and CodeChef.
- Ranked in the **Top 25** on GeeksForGeeks out of 400+ geeks at Uka Tarsadia University.
- **TFWS** (Tuition Fee Waiver Scheme) scholarship awardee.
